NOTE FROM THE DIRECTOR

Atli has been on my radar for a long time and finally we found the perfect project where we could work together. He's a great talent with both heart and action. So rare in this business. He writes incredibly powerful music where you can feel the Icelandic roots surface and he writes beautiful lyrical pieces where the movie needs that. It's been so much fun to work with him because although it was an impossible deadline, and lots and lots of changes and notes, he always kept his cool and his great sense of humor. It made finishing the movie such a pleasure and I am very proud of the result.

- **HARALD ZWART, *DIRECTOR***

NOTE FROM THE COMPOSER

This project has been a rare treat: a well-constructed movie with great opportunities for music and a very musically inclined director who is a joy to work with! I came on board quite late and had very little time to write tons of music but sometimes when there's no time for second-guessing, you get your best work done. I want to thank Harald for trusting me and being such a great partner in crime. After I played him my first theme idea for Clary he responded, "could the last note in the second phrase be down a half step - a C sharp I think?" ...Not only was he right about what pitch it was but also the fact that the melody worked better that way! From then on, I knew I had to be on my toes but as it turned out, we had a great time working together and I hope everyone who listens will enjoy the outcome as well!
